REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: the references of the record fail to teach or suggest a flux output estimator, a flux measurer, and a fix/rotational coordinate converter as shown in figure 3 of the invention. Claim 1 recites a fixed/rotational coordinate converter and claim 2 recites a rotational/fixed coordinate converter. The claim limitations are interpreted and being treated the same as A/D converter and D/A converter. Therefore, the fixed/rotational coordinate converter is not the same as the rotational/fixed coordinate converter.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Priority

2. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.
